

# Safety data sheet

Page: 1/9

BASF Safety data sheet

Date / Revised: 02.12.2013

Product: **STRATAGEM® SECURABLE 20 G**

Version: 2.0

(58943369/SDS\_GEN\_AU/EN)

Date of print 04.12.2013

## 1. Substance/preparation and company identification

### **STRATAGEM® SECURABLE 20 G**

Use: rodenticide, biocide

#### Manufacturer/supplier:

BASF Australia Limited (ABN 62 008 437 867)

Level 12, 28 Freshwater Place Southbank

Victoria 3006, AUSTRALIA

Telephone: +61 3 8855-6600

Telefax number: +61 3 8855-6511

#### Emergency information:

BASF Emergency Advice Number: 1800 803 440 (24h) [within Australia]

BASF Emergency Advice Number: + 61 3 8855 6666 [outside Australia]

## 2. Hazard identification

No specific dangers known, if the regulations/notes for storage and handling are considered.

NON-HAZARDOUS SUBSTANCE, NON-DANGEROUS GOODS

## 3. Composition/information on ingredients

### Chemical nature

rodenticide, Bait, biocide

Contains: Flocoumafen (Content (W/W): 0.005 %)

---

#### 4. First-Aid Measures

General advice:

Remove contaminated clothing.

If inhaled:

Keep patient calm, remove to fresh air.

On skin contact:

Wash thoroughly with soap and water.

On contact with eyes:

Wash affected eyes for at least 15 minutes under running water with eyelids held open.

On ingestion:

Rinse mouth and then drink plenty of water.

Note to physician:

Symptoms: coagulation disorders

Increased tendency to bleed.

In severe cases, massive bleeding from internal organs may result in circulatory shock, which could prove fatal.

The onset of symptoms is delayed for up to 4 days after uptake.

Hazards: The substance / product is an anticoagulant rodenticide with a coumarin-type mode of action.

Treatment: Symptomatic treatment (decontamination, vital functions).

---

#### 5. Fire-Fighting Measures

Suitable extinguishing media:

dry powder, foam, water spray

Unsuitable extinguishing media for safety reasons:

carbon dioxide

Specific hazards:

carbon monoxide, hydrogen fluoride, carbon dioxide, nitrogen oxides, toxic gas

The substances/groups of substances mentioned can be released in case of fire.

Special protective equipment:

Wear self-contained breathing apparatus and chemical-protective clothing.

Further information:

In case of fire and/or explosion do not breathe fumes. Keep containers cool by spraying with water if exposed to fire. Collect contaminated extinguishing water separately, do not allow to reach sewage or effluent systems. Dispose of fire debris and contaminated extinguishing water in accordance with official regulations.

---

---

## 6. Accidental Release Measures

### Personal precautions:

Use personal protective clothing. Avoid contact with the skin, eyes and clothing. Avoid dust formation.

### Environmental precautions:

Do not discharge into drains/surface waters/groundwater. Do not discharge into the subsoil/soil.

### Methods for cleaning up or taking up:

For small amounts: Contain with dust binding material and dispose of.

For large amounts: Sweep/shovel up.

For residues: Contain with dust binding material and dispose of.

Avoid raising dust. Dispose of absorbed material in accordance with regulations. Collect waste in suitable containers, which can be labeled and sealed. Clean contaminated floors and objects thoroughly with water and detergents, observing environmental regulations.

---

## 7. Handling and Storage

### Handling

No special measures necessary if stored and handled correctly. If dead and/or dying rats or mice are found during and after the control program, these must be cleared away immediately in order to avoid secondary poisoning phenomena. Do not apply in the open – cover bait points or use bait boxes. When using do not eat, drink or smoke. Hands and/or face should be washed before breaks and at the end of the shift. Ensure thorough ventilation of stores and work areas.

### Protection against fire and explosion:

Avoid dust formation. Dust can form an explosive mixture with air. Prevent electrostatic charge - sources of ignition should be kept well clear - fire extinguishers should be kept handy.

### Storage

Segregate from foods and animal feeds.

Further information on storage conditions: Keep away from heat. Protect against moisture. Protect from direct sunlight.

### Storage stability:

Storage duration: 60 Months

Protect from temperatures above: 30 °C

Changes in the properties of the product may occur if substance/product is stored above indicated temperature for extended periods of time.

---

## 8. Exposure controls and personal protection

### Components with occupational exposure limits

no exposure standard allocated

Personal protective equipment

Respiratory protection:  
 Respiratory protection not required.

Hand protection:  
 Suitable chemical resistant safety gloves (EN 374) also with prolonged, direct contact  
 (Recommended: Protective index 6, corresponding > 480 minutes of permeation time according to  
 EN 374): E.g. nitrile rubber (0.4 mm), chloroprene rubber (0.5 mm), butyl rubber (0.7 mm) and other

Eye protection:  
 Required when there is a risk of eye contact., Safety glasses with side-shields (frame goggles) (e.g.  
 EN 166)

Body protection:  
 Body protection must be chosen depending on activity and possible exposure, e.g. apron, protecting  
 boots, chemical-protection suit (according to EN 14605 in case of splashes or EN ISO 13982 in case  
 of dust).

General safety and hygiene measures:  
 Handle in accordance with good industrial hygiene and safety practice. Wearing of closed work  
 clothing is recommended. Store work clothing separately. Keep away from food, drink and animal  
 feeding stuffs.

**9. Physical and Chemical Properties**

|                        |  |
|------------------------|--|
| Form:                  | solid, blocks  |
| Colour:                | blue   |
| Odour:                 | almost odourless, faint odour, fresh cut grass   |
| pH value:              | approx. 4 - 7<br>(20 °C)   |
| Melting point:         | >= 64 °C<br>The statements are based on the<br>properties of the individual<br>components. |
| Boiling point:         | > 300 °C<br>The statements are based on the<br>properties of the individual<br>components. |
| Flash point:           | not applicable, the product is a solid   |
| Flammability:          | not flammable (Directive 92/69/EEC, A.10)  |
| Lower explosion limit: | For solids not relevant for<br>classification and labelling.                               |
| Upper explosion limit: | For solids not relevant for<br>classification and labelling.                               |

BASF Safety data sheet  
 Date / Revised: 02.12.2013  
 Product: **STRATAGEM® SECURABLE 20 G**

Version: 2.0

(58943369/SDS\_GEN\_AU/EN)

Date of print 04.12.2013

|   |   |                              |
|---|---|------------------------------|
| Self ignition:                                      | Temperature: 267 °C   |                              |
| Explosion hazard:                                   | Based on the chemical structure there is no indicating of explosive properties. | (Directive 84/449/EEC, A.14) |
| Fire promoting properties:                          | Based on its structural properties the product is not classified as oxidizing.  |                              |
| Vapour pressure:                                    | not applicable  |                              |
| Density:  | approx. 1.27 g/cm <sup>3</sup><br>(20 °C)                                       | (OECD Guideline 109)         |
| Relative vapour density (air):                      | not applicable  |                              |
| Solubility in water:                                | insoluble   |                              |
| Information on: Flocoumafen                         |   |                              |
| Partitioning coefficient n-octanol/water (log Pow): | 6.12<br>(pH value: 7)   | (OECD Guideline 107)         |
| -----   |   |                              |
| Viscosity, dynamic:                                 | not applicable  |                              |

**Other Information:**

If necessary, information on other physical and chemical parameters is indicated in this section.

---

## 10. Stability and Reactivity

**Conditions to avoid:**

See MSDS section 7 - Handling and storage.

Thermal decomposition: No decomposition if stored and handled as prescribed/indicated.

**Substances to avoid:**

strong acids, strong bases, strong oxidizing agents

**Hazardous reactions:**

No hazardous reactions if stored and handled as prescribed/indicated.

**Hazardous decomposition products:**

No hazardous decomposition products if stored and handled as prescribed/indicated.

---

## 11. Toxicological Information

**Acute toxicity**

Assessment of acute toxicity:

(58943369/SDS\_GEN\_AU/EN)

Date of print 04.12.2013

The product has not been tested. The statement has been derived from substances/products of a similar structure or composition. Virtually nontoxic after a single ingestion. Virtually nontoxic after a single skin contact. Inhalation is not likely in the available physical form.

LD50 rat (oral): > 5,000 mg/kg

LC50 (by inhalation):

Not inhalable due to the physico-chemical properties of the product.

LD50 rat (dermal): > 5,000 mg/kg

### **Irritation**

Assessment of irritating effects:

The product has not been tested. The statement has been derived from substances/products of a similar structure or composition. Not irritating to the eyes. Not irritating to the skin.

Primary skin irritation rabbit: non-irritant

Primary irritations of the mucous membrane rabbit: non-irritant

### **Sensitization**

Assessment of sensitization:

The product has not been tested. The statement has been derived from substances/products of a similar structure or composition. There is no evidence of a skin-sensitizing potential.

modified Buehler test guinea pig: Skin sensitizing effects were not observed in animal studies.

### **Repeated dose toxicity**

Assessment of repeated dose toxicity:

The product has not been tested. The statement has been derived from the properties of the individual components.

Information on: Flocoumafen

Assessment of repeated dose toxicity:

Repeated exposure to small quantities may affect certain organs. Damages the coagulation system.

### **Genetic toxicity**

Assessment of mutagenicity:

The product has not been tested. The statement has been derived from the properties of the individual components. Mutagenicity tests revealed no genotoxic potential.

### **Carcinogenicity**

Assessment of carcinogenicity:

The product has not been tested. The statement has been derived from the properties of the individual components. The results of various animal studies gave no indication of a carcinogenic effect.

### **Reproductive toxicity**

**Assessment of reproduction toxicity:**

The product has not been tested. The statement has been derived from the properties of the individual components. The results of animal studies gave no indication of a fertility impairing effect.

**Developmental toxicity****Assessment of teratogenicity:**

The product has not been tested. The statement has been derived from the properties of the individual components. Animal studies gave no indication of a developmental toxic effect at doses that were not toxic to the parental animals.

**Other relevant toxicity information**

Misuse can be harmful to health.

---

**12. Ecological Information****Ecotoxicity****Assessment of aquatic toxicity:**

There is a high probability that the product is not acutely harmful to aquatic organisms. The product has not been tested. The statement has been derived from the properties of the individual components.

Information on: Flocoumafen

Toxicity to fish:

| LC50 (96 h) 0.071 mg/l, *Oncorhynchus mykiss* (OECD Guideline 203)

Information on: Flocoumafen

Aquatic invertebrates:

| EC50 (48 h) 0.17 mg/l, *Daphnia magna* (OECD Guideline 202, part 1)

Information on: Flocoumafen

Aquatic plants:

| EC50 (72 h) > 18.2 mg/l, *Pseudokirchneriella subcapitata* (OECD Guideline 201)

**Mobility****Assessment transport between environmental compartments:**

The product has not been tested. The statement has been derived from the properties of the individual components.

Information on: Flocoumafen

Assessment transport between environmental compartments:

Following exposure to soil, adsorption to solid soil particles is probable, therefore contamination of groundwater is not expected.

### **Persistence and degradability**

Assessment biodegradation and elimination (H<sub>2</sub>O):

The product has not been tested. The statement has been derived from the properties of the individual components.

Information on: Flocoumafen

Assessment biodegradation and elimination (H<sub>2</sub>O):

Not readily biodegradable (by OECD criteria).

### **Bioaccumulation potential**

Assessment bioaccumulation potential:

The product has not been tested. The statement has been derived from the properties of the individual components.

Information on: Flocoumafen

Bioaccumulation potential:

Because of the n-octanol/water distribution coefficient (log Pow) accumulation in organisms is possible.

### **Additional information**

Other ecotoxicological advice:

Must not be discharged into the environment.

---

## **13. Disposal Considerations**

Must be disposed of or incinerated in accordance with local regulations.

Contaminated packaging:

Contaminated packaging should be emptied as far as possible and disposed of in the same manner as the substance/product.

---

## **14. Transport Information**

**Domestic transport:**

Not classified as a dangerous good under transport regulations

**Sea transport**

IMDG

Not classified as a dangerous good under transport regulations

**Air transport**

IATA/ICAO

## 15. Regulatory Information

### Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP) (Australia):

Poisons Schedule: Drugs & Poisons, Schedule 6

### Other regulations

If other regulatory information applies that is not already provided elsewhere in this safety data sheet, then it is described in this subsection.

### **Registration status:**

AICS, AU                          blocked / not listed  
APVMA 5419

---

## 16. Other Information

---

Vertical lines in the left hand margin indicate an amendment from the previous version.

The data contained in this safety data sheet are based on our current knowledge and experience and describe the product only with regard to safety requirements. The data do not describe the product's properties (product specification). Neither should any agreed property nor the suitability of the product for any specific purpose be deduced from the data contained in the safety data sheet. It is the responsibility of the recipient of the product to ensure any proprietary rights and existing laws and legislation are observed.
